Height: ____ft____ in **Weight:** _____ lbs

Informed consent for pupil dilation. To have a thorough eye health examination, it is necessary to dilate the pupils. Be aware that for approximately 2 to 6 hours following dilation you may notice the following: blurred vision, extreme sensitivity to light, decreased depth perception, and even feeling "off balance". If you are concerned about your ability to function or drive after dilation, and do not have anyone with you to assist you, you can request to reschedule for dilation. However, your eye examination is not complete until the internal eye health has been examined with your pupils dilated.
Consent: *I have read and understand the risk referred to above and hereby consent to having my pupils dilated today.*

ATLANTIC VISION CENTER

Atlantic Vision Center is proud to provide our patients with the most highly advanced technology available in retinal screening today! Our ability to view your internal retinal health is now dramatically improved with Optomap.

We are concerned about retinal problems including macular degeneration, glaucoma, retinal holes or detachments, tumors, and systemic diseases such as diabetes, stroke and high blood pressure. These conditions can lead to serious health problems including partial loss of vision or blindness, and often develop without warning and progress with no symptoms.

EARLY DETECTION IS CRITICAL!!

Optomap Provides:

- An annual eye wellness scan, replacing dilation for most patients
- An in-depth view of the retinal layers (where diseases can start)
- The ability to review your Optomap retinal image during your exam
- A permanent records for your medical file, which gives us comparisons for tracking and diagnosing potential eye disease

Optomap:

- Is fast, easy, and comfortable
- **May NOT require dilating drops (which result in blurred vision and sensitivity to light)**

Insurance typically does not cover advanced screening technologies. Because Atlantic Vision Center advises ALL of our patients to have an Optomap exam, we will perform the Optomap Retinal Examination as an enhancement service for an additional fee of only $45 for both eyes at your annual eye examination.

- □ Yes, I would like to have the Optomap exam
- □ No, I choose not to have the test
- □ I would like to discuss with my doctor
